Stratford		1			

Taking in consideration of all data within this report, does WTG feel a revision and/or additional enhanced activities are required for the PAP? Yes ☐ No ☒

Comments:

WTG Company Personnel involved in the PAP Review: PAP review conducted at Managers meeting December 15, 2020, see sign in sheet and schedule.

Date of last 4-year Effectiveness Review: 12/11/18

Taking into consideration the data within this report, does WTG feel the need to accelerate the 4 Year Effectiveness Review period? Yes ☐ No ☒

Summary: The WTG PAP has continued to reach the Affected public, Emergency officials, Farmers, One Call centers, Public officials, and Schools to educate them about our pipelines. WTG also sends educational material to the communities near our facilities, to ensure the protection of the public and our pipelines. We feel that we have an excellent PAP and have met all necessary requirements.

WTG management's commitment and ongoing support for its PAP is demonstrated through company policy, management participation, and allocation of resources and funding. Management believes that its full support will make a marked difference in the way its PAP is established, implemented, carried out by all WTG employees and received by the public. Management support can positively affect the overall effectiveness and success of the program.

Affirmed Support:
